

Do awards matter?

They mattered for The Randolphys.

 **RIVERSIDE**
HEALTHCARE

Do awards matter? They mattered for Jim and Mara.

Severe chest pain caused Jim Randolph to pull off the road and call 9-1-1. Jim was having a heart attack.

The team at the award-winning Riverside Heart & Vascular Institute saved Jim's life in record time that day. Only days later, wife Mara was also successfully treated by this same team.

Riverside is a Healthgrades America's 100 Best Hospital for Cardiac Care and has been named a Distinguished Hospital for Clinical Excellence five times. In addition, Riverside's remarkable attention to patients' needs has again been recognized with the Healthgrades Outstanding Patient Experience Award.
